## UNITED STATES ACCREDITATION BOARD

---

### **Training Institute Fees**

The United States Accreditation Board (USAB) fee policy is one of reasonable affordability for the training institute. The requirements of Training Course Accreditation are required to be met. There are two fee structures and either one may be selected at the discretion of the training institute. All training materials must be deposited at the USAB secure registry.

#### **Option 1 - Per student approach**

Please contact USAB at [info@usab-us.org](mailto:info@usab-us.org) for fee structure per student. An additional fee is paid for each student registered on the Training Institutes course.

Listing of all students and their photos is mandatory on the website.

#### **Option 2 - Whole institute approach**

Please contact USAB at [info@usab-us.org](mailto:info@usab-us.org) for information of fees per year. There is no limit to the number of courses registered or number of students.

Listing of all students and their photos is mandatory on the website.

**END**
